How can Teams help you?

➔ Recruit

When team members work well together, there is little they cannot accomplish. But recruiting new team members can be risky – get it right and you're achieving great things, get it wrong and you face performance dips, low morale and low productivity. Thomas Teams enables you to identify the ideal team member behavioral profile and match the right candidates to the team.

➔ Retain

Turnover of key staff within a team can seriously challenge the ability of your business to deliver consistently on its goals. Low morale and lack of loyalty can come from conflict, miscommunication and lack of trust. Thomas Teams, used in conjunction with PPA, will enable you to manage and motivate your teams by providing you with an understanding of their strengths, limitations and motivators. It will provide an environment of understanding that enables you to have honest conversations and reduce staff turnover.

➔ Develop

Many teams, especially in today's climate, are under pressure to achieve more with fewer resources. Thomas Teams helps you ensure your teams perform to their maximum ability and enables you to develop your people as an operational unit, instead of as a group of individuals.

IDEAL TEAM CULTURE

D I S C

The ideal culture profile created by the organization indicates that the requirement is for a team style that involves Motivator, Innovator and Networker type roles. This team will:

- Promote the organization.
- Motivate and encourage others to achieve results.
- Want variety and change.
- Be highly sociable.
- Achieve results in a fast moving environment.
- Continually act with a sense of urgency.
- Welcome, accept and create change.

IDEAL TEAM ROLE

In order for the Ideal Team to operate successfully it is vital that at least one of each of the following team roles is represented:

MOTIVATOR

Motivators create team spirit while at the same time influences and enthruses people to work together effectively, therefore maximizing the commitment of team members.

COMPARISON - IDEAL VS. ACTUAL

The following graphs show both the Ideal and Actual Team Culture.

Ideal Team - Adjusted

Actual Team - Adjusted

D I S C

The Team is detailed orientated and adheres to rules, procedure and policies. Therefore, the strong-willed and independent approach required by the organization may not be adopted. They are likely to be over-cautions and could spend too much time researching analytical data in order to find practical solutions to problems. As a result, they may hesitate and yield their position in the face of opposition, rather than stand firm and encourage independence.

TEAM ROLE CHART

The Team Role Chart below identifies the intensity of each role within this team. The roles fall into three categories, strengths, balanced, or limitations.

Vital Team Roles

The Team Roles shown as vital under the heading 'Ideal Team Role' that should fall into the 'Strengths' sector of the chart shown below are as follows:

Motivator
Innovator
Networker

If they show as 'Balanced', it may limit the results of the team slightly. However, if they show as 'Limitations' then lack of achievement against goals and objectives could arise. It is absolutely essential that the effect of any limitation is carefully reviewed.
